Seventh-day Adventists have known since the latter half of the 1800's about the important interaction between lifestyle, disease and health, and the benefits of this interaction have been scientifically proven through advances in science and research. The Health Department urges us to encourage and support one another to adopt healthier lifestyles for robust lives! We want to thrive, not just survive. We'll have the first of our Lifestyle Series this evening, February 8, at 5 pm as we close out the Sabbath with **Vespers**.

Alpharetta **Men's Ministry** meets today right after the church service in the Fellowship Hall. All men invited!

Pathfinders and **Adventurers** meet today after church.
